

Donnie Kay P. Cherry

MY GOALS

I want to get a good high school education and then go on to college because I want to help my family improve their lives. When I finish my studies I will help my parents by telling them to retire from their job because they will be too old to work. I will tell them that it is my turn to work. I will also help my brothers in their assignments, projects, and paying for their tuition fee. After wards I will help my relatives in our province. I will also help other people.
