

Leorico T. Sanchez 2

I want to get a good high school education and go on to college so that one day I can help my family have a better life. I dream of becoming a doctor and of sending my brothers to school. I also dream of helping the poor when I grow up.

I learned so much in East For An Angry Minds school! I learned how to use the computer, how to cooperate in class, to listen, and not to fight w/ my classmates.

East For An Angry Minds school will make a difference in my family's life because through it, I know they will have a better life. Through my education in East For An Angry Minds school, I hope one day I will give my family a big house, good to eat, and I hope to be able to take care of them.
