

Roseanne V. Pinto

I want to go to a good high school and then go to college because I want to have a good job. I want to study education so that I can be a teacher to help my family and other people.

In Food for Hungry Minds school, I learned not to waste time. I learned to divide it among my studies, my family, and play. I study every night.

I help my family in washing clothes, washing the dishes and cleaning the house every weekend. On Saturday afternoons I play with my friends. I am glad I learned to divide my time. This way I can share myself with others.
