

Vincent Laciste

I will always be thankful for my teachers in Food for Hungry Minds School. They taught us & continue to teach us good manner, how to eat properly, and wonderful and helpful academic lessons. When I graduated from here, I want to go to a good high school and get into a good college, and one day be a priest. I want to be a priest because I want to continue Jesus' mission of helping others & giving hope to people.

Food for Hungry Minds School give me things so my mother will not buy my things. My mother will keep the money that will spend for me, and my family will not account me in me.
